§ 305.34 Payment of incentives.

(a) Each State must report one-fourth of its estimated annual incentive payment on each of its four quarterly collections' reports for a fiscal year. When combined with the amounts claimed on each of the State's four quarterly expenditure reports, the portion of the annual estimated incentive payment as reported each quarter will be included in the calculation of the

next quarterly grant awarded to the State under title IV-D of the Act.

(b) Following the end of each fiscal year, HHS will calculate the State's annual incentive payment, using the actual collection and expenditure data and the performance data submitted by December 31st by the State and other States for that fiscal year. A positive or negative grant will then be awarded to the State under title IV-D of the Act to reconcile an actual annual incentive payment that has been calculated to be greater or lesser, respectively, than the annual incentive payment estimated prior to the beginning of the fiscal year.

(c) Payment of incentives is contingent on a State's data being determined complete and reliable by Federal auditors.

§ 305.35 Reinvestment.

(a) A State must expend the full amount of incentive payments received under this part to supplement, and not supplant, other funds used by the State to carry out IV-D program activities or funds for other activities approved by the Secretary which may contribute to improving the effectiveness or efficiency of the State's IV-D program, including cost-effective contracts with local agencies, whether or not the expenditures for the activity are eligible for reimbursement under this part.

(b) In those States in which incentive payments are passed through to political subdivisions or localities, such payments must be used in accordance with this section.

(c) State IV-D expenditures may not be reduced as a result of the receipt and reinvestment of incentive payments.

(d) A base amount will be determined by subtracting the amount of incentive funds received and reinvested in the State IV-D program for fiscal year 1998 from the total amount expended by the State in the IV-D program during the same period. Alternatively, States have an option of using the average amount of the previous three fiscal years (1996, 1997, and 1998) as a base amount. This base amount of State spending must be maintained in future years. Incentive payments under this
